## **INSTRUCTIONS**

1. This book will be kept in the holder on the unit to which it is assigned.
2. All entries, including signatures, will be "PRINTED."
3. The time the unit is operated during inspections or overhauls will be entered under "OPERATING TIME" and circled to facilitate reference to last inspection or overhaul. The total operating time of the unit will then be entered on the appropriate inspection or overhaul page. 100-hour oilings, performed at alternate 50-hour inspections of Glide Bombing Attachment, in accordance with Appendix "D" (Lubrication Chart) of Technical Order No. 11-30-67, will be entered on pages 6 and 7 of this book. The title on these pages, which does not apply to the unit to which this book is assigned, will be lined out.
4. All spaces under "OPERATING TIME" will be utilized and totals entered at bottom of page only when the page is completely filled. Total time will then be brought forward to the top of the next page.
